HOW HAPPY *HAPPENS*

YOUR JOURNEY THROUGH AN
UPLIFTING BATHROOM EXPERIENCE

WE'RE SO GLAD YOU'RE HERE

Most people feel strained using their daggy, outdated bathrooms. Whether it's a leaking shower, cramped layout, or just a style that doesn't spark joy, a bathroom that isn't working for you affects your whole day, every day.

That's where we come in.

At Happy Bathrooms, we don't just renovate bathrooms—we elevate homes

and families by creating beautiful, functional spaces that make your daily routine easier, calmer, and (dare we say it?) more... **joyful**.

This guide will walk you through how we bring Happy to your home—what to expect, how we do things differently, and why investing in what you can't see is the key to getting a bathroom you'll love for years to come.

“Investing in what you **can't** see is the key to getting a bathroom you'll love forever”

WHAT MAKES A BATHROOM “HAPPY”?

Pause for a moment...

What makes a bathroom truly “happy”?

Most people immediately think of what they can see:

A stunning vanity

Stylish tiles

Fancy fittings

Guess what?! 85% of your bathroom renovation cost is invisible — and that’s what makes all the difference.

A Happy Bathroom is one that’s built to last. It’s a bathroom where the waterproofing holds strong, the plumbing works flawlessly, and every detail is designed with your lifestyle in mind.

At Happy Bathrooms, we ensure every renovation is an investment for your future — not a temporary fix.

A vertical photograph on the left side of the page shows a man and a woman walking away from the camera on a sandy beach. They are holding hands and walking towards the ocean. The man is wearing a white t-shirt and blue shorts, and the woman is wearing a yellow floral dress. The sky is a clear, light blue, and the ocean is visible in the distance.

1. CALL US NOW

We like to get to know people's needs, then we assess the needs of the bathroom.

If you're just getting to know us, here's a sneak peak of how we do it;

Initial Call - we love a chat!

Let's talk and see if we want to work together.

Happy Bathrooms

Questionnaire - We've created a tailored document that captures the important things straight up! This is optional.

 **FREE Initial Consult** - We then meet face to face to take you through a special process we call **"Highway to Happy"**. It's a deep dive on 6 simple questions that tell us your vision and necessities. Then, only *after* that, do we **'Meet Your Bathroom'**.

We offer different packages, rather than a "guesstimate" and asking for a signed contract that will leave you owing unknown amounts in additional, unaccounted for work and materials.

We do the hard work up front, rather than locking you into a contract with unknown costs!

2. GET YOUR FIXED PRICE QUOTE

Here is where your reno journey gets really **'happy'**.

We set to work creating your fixed price quote.

When you're happy to proceed, we book your Inspect & Measure" visit. This can take a few hours. It's a lot of levels, lasers, tape measures and notes, as well as some crafty equipment to forecast any nasty surprises that may be lurking, ***before lifting any tiles or causing any damage.***

During this time we do a **Design Consult** process with you as well where we choose the

Then, we sit down and **present the quote** to you, giving you an upfront price that includes everything we can foresee, and a contingency amount — so **you're in control of your budget.**

Fun Fact:

The bathroom is the one room in the house that uses every trade. Yup. We lock in their prices and test who's the most respectful of people's homes.

3. BRAG ABOUT YOUR BATHROOM!

Construction & Magic Happens!
Sit back and let us do what we do best—bringing your bathroom vision to life with expert craftsmanship and clear communication throughout.

Then it's time to...
BRAG About Your Bathroom!

We love celebrating your new space with you. **Whether it's a "Bathroom Reveal Party" or just a long, luxurious soak in your new tub**, you can relax knowing your renovation was done once, and done right.

Ok, so it's not THE BLOCK - so let's make your neighbours curious about why you've been smiling so much lately?

THE TRUE COST OF A BATHROOM DONE RIGHT

This is the bit we're all dreading. The Real talk.

Here's just a few things that can make the cost of a bathroom renovation add **\$1,000-5,000+ each** very quickly, and get left off 'free quotes'.

What can make costs rise? Here's some examples;

- ⚠️ Asbestos removal
- ⚠️ New electrical circuit or switchboard (some required by law)
- ⚠️ Structural repairs (in NSW water damage is a building defect)
- ⚠️ Re-routing plumbing
- ⚠️ Replacing damaged or old subfloors and/or ceilings
- ⚠️ Moving or replacing windows and doors
- ⚠️ Layout changes mean new walls for adjoining rooms etc too!

At Happy Bathrooms, we plan for everything upfront so you know what to expect!

Water damage is now a building defect in NSW, and 60% fail in new builds
